## Summary

---

MERN Stack developer with hands-on experience creating web applications using MongoDB, Express.js, React.js, and Node.js. Comfortable working with APIs, managing state, and using Git for version control. Gained practical experience through an internship at Luminar Technolab, working on features like JWT-based authentication, HTML5 QR code scanning, and Firebase integration. Focused on clear API design, backend performance, and writing maintainable code.

## Experience

---

### Full Stack Web Developer

Luminar Technolab

Aug 2024 – Present

Kochi, India

- Contributed to team-based MERN stack projects in a structured workflow.
- Developed reusable React components and connected APIs using Axios and Express.js.
- Set up JWT-based authentication with role checks in backend routes.
- Adjusted UI for better responsiveness on mobile, improving load times and usability.

## Education

---

Diploma in ME(A)RN Stack in Luminar Technolab

Aug 2024 - Mar 2025

BSc Computer Science in University of Calicut

Aug 2021- Mar 2024

## Projects

---

### Cabbon – Mobile Catering Management Software

Mar 2025 – Apr 2025

- Built a mobile-first platform to track student participation in campus events.
- Structured multi-level access: Manager → Boys Captain → Captains/Vice Captains → Students.
- Enabled event creation and tracking through protected forms available only to specific roles.
- Used JWT to manage secure login for 20+ users.

### Local Guide – Tourism Web App

Dec 2024 – Feb 2025

- Created a single-page app for 30+ users to explore 20+ tourist spots, hotels, and events.
- Designed and deployed a dashboard to manage over 50+ listings with filters and search.
- Connected Razorpay for event payments.

### Weather Forecast Web App

Nov 2024

- Developed a real-time weather app using OpenWeather API.
- Reused 5 custom React components to display data.
- Reduced loading time by 20% through optimized API fetching.

## Skills

---

**Web Development:** HTML5 , CSS, JavaScript, Bootstrap, Tailwindcss, React, Node.js, Express.js, MongoDB, Git, Github, Vercel, Figma, Angular, Netlify, Render

## Languages

---
